## **JOB OPENING: APPLIED BEHAVIOR ANALYST**

We are seeking a BCBA or an Associate BCBA to join our practice, which began in 1996. Primarily through contract with the State of OK, we provide behavioral services to persons with intellectual and related disabilities in the following settings:

1. Private homes for those living with their family.
2. Assisted/shared living homes for those living on their own or with housemates.
3. Group homes
4. Sheltered work settings.

Services we provide:

1. Behavioral reduction for the full range of challenges.
2. Skill acquisition (most commonly for those with autistic disorder).

Primary duties of the position:

Under supervision of a licensed psychologist, conduct functional assessments, write behavioral interventions, train caregivers, perform follow-up site visits, attend planning meetings and review data/write status reports.

Our office is based in Norman, OK. Services they will provide will depend on their particular interests and strengths, but will emphasize programming for those with various behavioral challenges.

Starting salary depends on experience and workload. However, the applicant we hire can expect a salary of \$65K within 12 months of hire. Benefits include health, dental, retirement and paid vacation.

We are somewhat flexible on start dates for the successful applicant but hope to have someone in place no later than 3/1/22.

If interested or have questions, please send cover letter/CV or questions to Dr. Karen Maston at karen@positivestrategies.net
